**UniCar**  
GROUP

## » UniCar Group

Lead from our German headquarters, UniCar's international network of specialized automobile surveyors provide accurate surveys of vehicle quality for over 5 million automobiles annually. Vital vehicle quality data is then paired with sophisticated data analysis tools and placed in a secure web-database for immediate customer access. UniCar's clients use the database for claims processing, close monitoring of risk, KPIs and optimisation of their business performance.

## » Services

UniCar provides services to three key markets in the automotive industry:

### » Logistics (automobile manufacturing, truck, train, terminal and shipping companies)

Along the full transport chain we offer surveys, handling supervision, repair cost supervision and calculation, audits and claim processing management for finished vehicle logistics companies.

### » Automotive dealers

We provide on-site vehicle delivery surveys, audits and consultancy.

### » Leasing companies

We deliver detailed assessment of vehicles on return from lease.

Major car manufacturers, leasing companies and logistic providers all trust UniCar to be their eyes on the ground.

## » Adding value to your business

Effective risk management and damage prevention are **key success factors** in the automobile logistics industry. UniCar's role is to provide you with the information and tools you require to manage both. The result? Increased customer satisfaction and achievement of your business goals.

The accurate and immediate knowledge of vehicle condition is essential for both risk management in the short-term (claims processing) and in the long-term (damage prevention and performance management). UniCar provides quality vehicle assessment and immediate access to the data for the efficient and flexible operation of your business. We're working for both your immediate and long-term success.

**UniCar's mission is to add significant value to the business performance of our customers.**

UniCar Group is a world leader in automobile surveying, focussed on assisting you to improve delivery quality, damage prevention and your business performance.
